Objective

Obtain a job within the information technology field that utilizes all possessed skills and abilities, while simultaneously requiring new skills to be learned, providing a launch pad into new and dynamic career opportunities.

Skills

- A+ certified and MCP 70-270 (Microsoft Windows XP) certified.
- Extensive knowledge of Microsoft, Apple & GNU/Linux operating systems.
- Experience in networking on the consumer, SOHO, and enterprise levels.
- Knowledge of Batch and bash scripting, PHP, XHTML & CSS development.
- Understanding of desktop and server hardware troubleshooting and implementation.

Experience

The University of Michigan, ITS/BlackOps • Ann Arbor, MI 05/2009 – 09/2009

Assisted in email server maintenance tasks. Created several bash scripts to aid in system maintenance. Installed new hardware and managed new and existing software packages.

iQGuys, LLC • Ann Arbor, MI 10/2008 – 05/2009

Design and implementation of websites coded in PHP, with an emphasis on CSS and SQL.

G-Tech Professional Staffing • Dearborn, MI 03/2008 – 05/2008

Contracted to Evans Solutions, Inc. as internal IT support for a Detroit charter school system. Responsibilities included maintaining a network comprised of mainly Macintosh computers and network attached printers. Additionally, support was provided to staff members.

A² Computers • Ann Arbor, MI 02/2007 - 02/2008

Diagnosed and repaired Macintosh, Linux, and Windows-based computers, networks, and network attached devices for clients sizing from home users to medium sized businesses.

Education

Washtenaw Community College • Ann Arbor, MI 2008 – 2012 (Projected)

Pursuing a degree in Computer Systems Security.

Oakland Community College • Orchard Lake, MI 2005 - 2006

Completed classes including Linux Administration, Networking Concepts, and Fundamentals of Information Systems.

Oakland Technical Center 2000 - 2001

Received my A+ certification and MCP 70-270 (Windows XP) certification. Also studied for the 70-215 (Windows 2000 Server), and Network+ certifications, but did not take the certification tests.
